Good Morning,

This is to remind you of the upcoming Information Session, which is scheduled to take place Wednesday, July 3 from 10 a.m. to 11 a.m. in Room 1301 of the Health Sciences Building (HSB). All HSB occupants and vivarium users are encouraged to attend.

Full details can be found in the e-mail below. Please circulate this message amongst your colleagues in HSB and do not hesitate to contact odscience@carleton.ca should you have any questions.

We look forward to seeing you on Wednesday and wish everyone a happy Canada Day weekend.

Thank you,
Office of the Dean of Science

Sent on behalf of Charles Macdonald, Dean, Faculty of Science. Please share this with your colleagues in the Health Sciences Building.

To: Health Sciences Building Occupants and Vivarium Users

Dear Colleagues,

I would like to provide an update regarding the transfer of animals from the uOttawa animal facility to the new Carleton Health Sciences Building (HSB) facility.

We remain on target to have the move of the animals back to Carleton University completed by August 26.

Information Session
An information session will be held on Wednesday, July 3 from 10 a.m. to 11 a.m.

Location: Room 1301 Health Sciences Building

There will be a brief presentation, followed by a question and answer period.

The purpose of this information session is:

• To provide an update regarding the transfer of animals from the uOttawa animal facility to the new Carleton Health Sciences Building (HSB) facility and,
• Provide a construction update

If you are unable to attend this information session, the presentation and FAQs will be posted to the ODS website for your reference.

**Current Timelines for the Move**
As we communicated last month, our current timeline means all breeding pairs need to be separated no later than July 12 to ensure that the youngest animals moved the week of August 12 will be at least 7 days old. This is for animal health and welfare considerations.

As information becomes available, we will continue to update you. If you have any questions, please contact me directly. I would like to thank everyone for their ongoing support and patience.

Thanks,
Chuck Macdonald
